

Course Change Proposal

Subject Kinesiology (742)
Proposer Lisa Cappabianca

Status Under Review by Subject Owner

Basic Information

What is the primary divisional affiliation of the course?

Interdivisional

Current course number

337

Current course title

Human Anatomy

Current published course description

Uses a regional approach to provide a foundation of knowledge in human anatomy. Units cover an introduction to anatomical systems; back and limbs; thorax, abdomen, and pelvis; and head and neck.

Chief academic officer of this unit

Gary M Diffie

Designee of chief academic officer for approval authority

Currently crosslisted with

When will this change go into effect?

Fall 2018-2019

Basic Changes

Will the subject change?

No

Current subject

Kinesiology (742)

Proposed subject

Will the course number change?

No

Current course number

337

Proposed course number

Is this an honors course?

Is this an individual instruction course such as directed study, independent study, research or thesis (i.e., a course with no group instruction)?

Will the title change?

No

Current title

Human Anatomy

Proposed title (max. 100 chars.)

Proposed transcript title (max. 30 chars.)

Will the crosslistings change?

No

Current crosslistings

Proposed crosslistings

Will the "repeatability" of the course change?

No

Current repeatability

Proposed repeatability

Catalog Changes

Will the credits change?

No

Current minimum credits

3

Current maximum credits

3

Proposed minimum credits

Proposed maximum credits

Will the grading system change?

No

Current grading system

Proposed grading system

Will the published course description change?

No

Current course description

Uses a regional approach to provide a foundation of knowledge in human anatomy. Units cover an introduction to anatomical systems; back and limbs; thorax, abdomen, and pelvis; and head and neck.

Proposed course description

Will the prerequisites change?

No

Current prerequisites and other requirements

Not open to first-year students

Proposed prerequisites and other requirements

Designation Changes

Will the graduate course attribute status change?

No

Should this course have the graduate course attribute?

If yes, this course:

Will the Liberal Arts and Sciences (LAS) undergraduate designation change?

No

What change is needed?

What is the rationale for seeking LAS credit?

Will the level of the course change for L&S attributes?

No

Current level:

Intermediate

Proposed level:

Will the L&S breadth requirement change?

No

Current breadth:

B-Biological Science

Proposed breadth:

Will the General Education Requirement change?

No

Current GER:

Proposed GER

Additional Information

Explain the relationship and importance of the proposed change to existing or future programs (i.e., degrees, majors and certificates)

With a target date of Fall '18, Kinesiology 337 (anatomy lecture) will be moved from the Kinesiology department's subject heading into a new subject heading, Anatomy & Physiology, which will be administered in the Kinesiology Dept. in the School of Education. Kines 338 is a requirement for a few majors; affected subjects are indicated below. The proposed changes should NOT tangibly affect the degrees, majors or certificates of any of those students.

Are any of these programs outside your academic unit?

Yes

Indicate the subjects that are most closely aligned with the other academic units. The proposal will be sent to the academic units that support those subjects for review.

Dance (741)

Occupational Ther (Dept-Kines) (695)

Nursing (692)

Specify which requirement(s) this change affects, if any (e.g. satisfies third-level language, meets the major's capstone requirement, fulfills PhD minor requirement)

None

Do any of these requirements affect programs (degrees, majors, certificates) outside your academic unit?

No

Indicate the subjects that are most closely aligned with the other academic unit. The proposal will be sent to the academic units that support those subjects for review.

Address the relationship of this change to other UW-Madison courses, including possible duplication of content

None

Is there a relationship to courses outside your subject?

No

Indicate the outside affected subject(s). The proposal will be sent to the academic units that support those subjects for review.

Will any courses be discontinued as a result of this change?

No

List course number(s) and complete a course discontinuation proposal for each course

Justification Changes

Explain the need for the change

A new subject heading, "Anatomy & Physiology," is moving forward right now. The Physiology department has submitted proposals to move their courses to the new subject heading, which will be administered by the Kinesiology department in the School of Education. This proposal will move Kinesiology 337 to the new subject heading. Housing the course under the current heading of Kinesiology creates confusion on the part of students attempting to enroll in the course. By housing anatomy and physiology under the same subject heading, this will hopefully eliminate that confusion. It will also alleviate confusion on student transcripts - some graduate programs will not accept an anatomy course labeled as kinesiology.

Additional comments (optional)

This course change proposal is dependent on moving Anatomy 337 into the subject heading "Anatomy & Physiology" which does not exist yet. A proposal to create that new subject heading is moving forward right now.
