Additional Information

Explain the relationship and importance of the proposed change to existing or future programs (i.e., degrees, majors and certificates)

This course is offered to both graduate and undergraduate students. The existing prerequisite will be restrictive to future undergraduate enrollment and will require manual permissions.

Are any of these programs outside your academic unit?

No

Indicate the subjects that are most closely aligned with the other academic units. The proposal will be sent to the academic units that support those subjects for review.

Specify which requirement(s) this change affects, if any (e.g. satisfies third-level language, meets the major's capstone requirement, fulfills PhD minor requirement)

Will not have effect on any existing requirements.

Do any of these requirements affect programs (degrees, majors, certificates) outside your academic unit?

No

Indicate the subjects that are most closely aligned with the other academic unit. The proposal will be sent to the academic units that support those subjects for review.

Address the relationship of this change to other UW-Madison courses, including possible duplication of content

Will not have effect on any existing courses.

Is there a relationship to courses outside your subject?

No

Indicate the outside affected subject(s). The proposal will be sent to the academic units that support those subjects for review.

Will any courses be discontinued as a result of this change?

No

List course number(s) and complete a course discontinuation proposal for each course

Justification Changes

Explain the need for the change

This course number is used as a workshop that serves as a trial run for new courses before submitting them as new course proposals. The existing requisite of "graduate standing" restricts the use of this course number only to graduate courses. Requisites were not previously enforced so it did not present an obstacle for undergraduate level workshops. The removal of the requisite will allow the department to use Kines 508 for both graduate and undergraduate courses without requiring instructor consent for undergraduate enrollment or the use of manual permissions.
