Kinesiology 127

Grading Basis

A/F

Component Type

Lecture section is scheduled

Credits

3

Is this a topics course?

No

Repeatable

No

Does this course need a scheduled two-hour final exam for fall and spring offerings?

Yes

Course Designations**Should this course be considered for LAS credit?**

No

Should this course be considered for the Ethnic Studies General Education attribute?

No

Should this course have the workplace course attribute?

No

Rationale for the Course

Why is this course being proposed? In responding to this question, be sure to answer the following: What gap in the curriculum is this course fulfilling? What is the purpose of the course? What degree and/or major requirement(s) will this fulfill?

This course proposal is presented as a companion to a new certificate proposal in Athletic Healthcare in the Department of Kinesiology. This course proposal is put forward as companion to the formal certificate authorization proposal. This course has been designed as a core course in the proposed certificate. In addition to the proposed certificate we have surveyed Kinesiology and Pre-Kinesiology Students and found that 98% were interested in the certificate. The purpose of this course is to discuss contemporary issues in athletic healthcare and to provide students with basic skills that they will encounter in graduate level professional programs.

What is the estimated enrollment for the course?

30

How many qualified instructors in the primary unit will be able to teach the course?

3

Address the relationship of the course to other UW-Madison courses, including the duplication of content, both inside and outside the primary unit.

This course does not duplicate current content in the Department of Kinesiology. Any potential content overlap with existing programs has been reviewed by the departments and programs who have provided support to this certificate program.

Course Content Information**Course Learning Outcomes**

	Outcomes – enter one learning outcome per box, use the green + to create additional boxes.	Audience
